AMERICAN BANTAM ASSOCIATION INFORMATION BANK

All listed titles were published in American Bantam Association yearbooks (YB) or in the American Bantam Association newsletters — Bantam Culture Lessons (BC) from 1950 through 1976, Quarterly (Q) from 1977 through 1983. This project would not have been practicable before the days of the copying machine and even so the prospective purchaser must be aware of certain limitations.

1. Photographs do not copy too well.
2. There is a wide variability in readability because articles have been copied as they originally appeared in print with no editing.
3. Some of the articles are a bit dated, perhaps mainly of historical interest, but other old ones are just as valuable today as they were when first printed.
4. There is no cross indexing even though some might be appropriate.

Tribute is paid to the late George Fitterer who served as secretary of the American Bantam Association from 1914 through 1976. This information bank proves that he gave education high priority as a policy of the ABA.

All titles have been classified under one of eleven headings:

- | | | |
|-------------|---------------------------------|-------------------|
| 1. Housing | 5. Breeds and Varieties | 9. Promotion |
| 2. Breeding | 6. Management & Disease Control | 10. Exhibiting |
| 3. Judging | 7. Incubation & Brooding | 11. Miscellaneous |
| 4. Hobby | 8. Bantam Ducks | |

Price is 25¢ per page. A four-page article would, therefore, cost \$1.00. Minimum order is \$1.00. 4-H club leaders are allowed 40 free titles.
